

## Corporate Data

**Hybrid Analytics** GmbH, a company specialized in business intelligence, database and project management, was established in August 2012 by the database and BI experts Kerstin Knoll and Kia Khosroschahli. The company emerged from the Kia Khosroschahli Business Intelligence company 2007 and has, with a continued growth, presently about 15 employees.

Hybrid Analytics GmbH provides consultancy services to the economy in all IT facets with a focus on corporate data. Our present customers include banks (investment, risk, regulatory ...) insurance companies and the industry.

We attach great importance to the training and upgrading of the advanced training of our employees. **Hybrid Analytics Academy**, a compulsory trainee program for all consultants, combines the necessary IT know-how with potential or current projects of our customers. Thus, we put ourselves in the position to be of specific assistance to our customers and to appoint qualified staff to implement our projects.
